Item 7.01 Regulation FD Disclosure.

California Resources Corporation (“CRC”) provides the following update regarding the previously disclosed Kern County Environmental Impact Report (“Kern County EIR”) litigation:

On March 7, 2024, a California appellate court delivered an opinion finding certain deficiencies in the Kern County EIR and enjoining reliance on the Kern County EIR in connection with the issuance of oil and natural gas permit approvals until such deficiencies are remedied. As we assess next steps and potential timelines, we expect to continue to execute the capital and drilling programs described in our fourth quarter 2023 earnings release and our recently filed Annual Report on Form 10-K. As previously disclosed, if we are not able to obtain new well permits in 2024, we plan to run a one rig program with a \$200 million to \$240 million total capital program in 2024 and would expect a 5% to 7% entry to exit production decline rate (without taking into account our pending Aera merger).

The information contained in this report shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and shall not be incorporated by reference into any filings made by the Company under the Securities Act of 1933, as amended, or the Exchange Act, except as may be expressly set forth by specific reference in such filing.
