Item 7.01 Regulation FD Disclosure.

Comment regarding Huntington Beach Oil Spill

The oil spill that occurred offshore Huntington Beach is a tragedy and we are deeply concerned about its impacts. The spill is not connected to California Resources Corporation (CRC) or its operations. CRC is cooperating with authorities to protect environmentally sensitive areas at the Bolsa Chica Wetlands and will continue to look for ways to help in the response.

CRC does not own or operate any offshore platforms in federal waters. A subsidiary of CRC operates one platform in state waters near Huntington Beach with a small amount of production and no processing facilities. This facility has not been impacted nor is it involved in any way in the current situation. CRC's assets are located primarily in the San Joaquin basin of Central California and on man-made islands in the Long Beach harbor area of the Los Angeles basin.

The information furnished in this Item 7.01 shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section, nor shall such information be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, regardless of any general incorporation language in such filing, except as shall be expressly set forth by specific reference in such filing.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
